

Role of Capillary/Gel Electrophoresis and Immunotyping in the Diagnosis of M.M Workshop

Head of Clinical Pathology Department

Prof. Nahed Abdel Wahab

Head of Chemistry Unit

Prof. Amal Fawzy

Workshop Coordinator

Prof. Noha Radwan

Scientific Committee

Prof. Iman Attia Abdel Gawad

Prof. Noha Hassan Radwan

Dr. Ghada Nabil

Dr. Ahmed Kamal

Dr. Ahmed Samir El Shazly

Dr. Menna Khaled

Fees of the workshop

Early Bird: 750 LE

Late Bird: 850 LE

Contact person:

Assistant. Prof. Noha Radwan

Role of Capillary/Gel Electrophoresis and Immunotyping in the Diagnosis of Multiple Myeloma Workshop

10:00
14:30

10:00-10:30 Introduction to Basics of Protein Electrophoresis.
Dr. Ahmed Samir

10:30-11:00 Interpretation of Different Electrophoretic Bands.
Dr. Ghada Nabil El Naggar

11:00-11:30 Clinical Significance of Ig Bands.
Dr. Menna Khaled

11:30-12:00 Electrophoretic Pattern of Multiple Myeloma.
Ass. Prof. Noha Radwan

12:00-12:30 Coffee Break.

12:30-13:00 Role of IFX in Diagnosing Rare Types of M.M.
Prof. Iman Attia Abdel Gawad

13:00-13:30 Capillary Electrophoresis & Immunophenotyping:
Interpretation of Real-life Cases.
Dr. Ahmed Kamal

13:30-14:30 Practical Session: Interpretation and Cases.

Lunch Break.
